

# Sakshi Saraykar

Frontend Developer | React.js Developer

+91-9309899215 | sakshisaraykar@gmail.com | Nagpur, Maharashtra

## PROFESSIONAL SUMMARY

Frontend Developer with 2 years of hands-on experience building responsive, interactive web interfaces for business, e-commerce, and cab-booking applications. Skilled in React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, and modern UI libraries. Experienced in reusable component design, REST API integration, state management, and Git-based team workflows, and comfortable working on-site with clients and cross-functional teams.

## TECHNICAL SKILLS

|                            |                                                                                                           |
|----------------------------|-----------------------------------------------------------------------------------------------------------|
| <b>Frontend :-</b>         | HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Bootstrap, SCSS, Material UI |
| <b>State &amp; API :-</b>  | Redux Toolkit, Zustand, Axios, REST APIs                                                                  |
| <b>Backend/Database :-</b> | Node.js, Express.js, MongoDB                                                                              |
| <b>Tools :-</b>            | Git, GitHub, Postman, Chrome DevTools, VS Code                                                            |

## PROFESSIONAL EXPERIENCE

### Frontend Developer | Primal Infosys Pvt. Ltd.

2024 – Present (2 Years)

*On-Site | Pune, Maharashtra*

- Built responsive business websites and interactive user interfaces using HTML, CSS, JavaScript, and React.js, ensuring consistent behavior across devices and browsers.
- Converted static pages into reusable React components, improving maintainability and keeping UI behavior consistent across screens.
- Contributed to web applications across e-commerce and cab-booking use cases, building listing, booking, and form-driven user flows.
- Integrated REST APIs using Axios and handled loading, success, and error states to keep the interface reliable.
- Managed application state with Redux Toolkit and Zustand for predictable data flow between components.
- Styled interfaces using Tailwind CSS, Bootstrap, SCSS, and Material UI, and collaborated on API-connected interface features.
- Worked on-site with team members and stakeholders to understand requirements, review progress, and resolve issues quickly.
- Used Git and GitHub for version control and code collaboration; debugged UI issues with Chrome DevTools and tested APIs with Postman.

## PROJECTS

### Hotel Assistant :-

Hotel Assistant – Hotel Management System

Developed a responsive hotel management application for room booking, reservation management, guest check-in/check-out, billing, and room availability tracking. Implemented reusable React components, REST API integration, form validation, search/filtering, and responsive UI using React.js, TypeScript, Tailwind CSS, Node.js, Express.js, and MongoDB.

### Banking Management System :-

Developed a responsive banking web application for account management, transaction processing, transaction history, and banking workflows. Integrated REST APIs with a React-based frontend and implemented authentication, protected routes, form validation, reusable components, and responsive UI using React.js, TypeScript, Tailwind CSS, Node.js, Express.js, and MongoDB.
